Dear Jane:

RE: Ten Million Miracles for SickKids

It is my great honour to express our most sincere thanks for your generous contributions to SickKids Foundation through Children's Miracle Network. Over the 20 years of partnership, you and your peers in the Greater Toronto Area have contributed over \$10 million in support of SickKids Hospital.

For two decades, RE/MAX agents like you have invested critically needed funds with SickKids Foundation. These contributions give the hospital the flexibility to respond to pressing needs as soon as required, allowing us to deliver world-class care, all of the time.

Your donations have also invested in research, leading recoveries today, and preventative care for future generations. Take for example Hunter Kemp (pictured below), a five-year-old who was diagnosed in 2009 with a form of cancer, Acute Lymphoblastic Leukemia (ALL).

In February 2011, research led to a breakthrough in treatment for children with leukemia. Hunter's care plan changed to a five month protocol and he was admitted for weeks at a time for more aggressive chemotherapy. As a result, Hunter entered a maintenance stage of treatment in summer 2011.

Your donations support research like this. Twenty years ago, only half of children diagnosed with cancer survived. Now more than 80% of children survive thanks in part to discoveries made here at SickKids.

Your personal commitment, and that of RE/MAX, is outstanding. Thank you for your part in this remarkable milestone.

Sincerely,

Aaron Sanderson, MA, CFRE
